Annexure IV

Following are the details of the various courses offered by IT Companies and Startups.

1. IBM

The Role of 21st Century Skills through IBM SkillsBuild for Strengthening the Swayampurna Goa (Self-Reliant Goa) Initiative

First part of the project covers the following:

1. Enhancing the skills of 500 youths with focus on access to employability by deep dive interventions. We are to focus on the following courses:
 - a. Full Stack Development: Full Stack Developers are in high demand due to the diverse skill set they can bring to the table. They work on building the front end and back end of a website or a web application.
 - b. Data Analytics – Data Analytics is important as helps businesses optimize their performances. Data analytics jobs are on the rise, estimates show that about 97,000 data analytics jobs lie vacant in India alone on an annual basis.
 - c. IBM Z Fundamental – This platform helps to bring transformation in business processes. Knowledge of this platform is very relevant in the job market.
 - d. Cybersecurity – 2023 Global Cybersecurity Skills Gap Report has presented data that there is 3.1mn jobs shortfall in cybersecurity globally, and the skill shortage is hitting the Indian firms badly. This course will be relevant as in the age where tech is advancing at a faster pace than ever, keeping with cybersecurity has become crucial.
 - e. Internet of Things (IoT) – This skill includes building and monitoring various devices that connect and exchange data with other devices and systems over networks.

2. The second part of the project proposes to bring 21st Century skills to 200 school students from Goa (Request you to facilitate / connect us with relevant school authority on this). Learn Fundamental 21st-century skills in alignment with the mandate of the NEP. Introduce the students to coding, designing, product manufacturing, and market linkages. This will be fully aligned with NCERT/SCERT curriculum and will also focus on improving learning outcomes in Math and Science. We propose to use Kojo coding learning environment to impart coding skills to these students (www.kojo.in). Kojo is already part of the SCERT curriculum in Goa (pls refer page 10 <https://cares.goa.gov.in/wp-content/uploads/2022/11/ICT-Letter-with-curriculum.pdf>) The aim would be:
 - a. Putting emphasis on learning critical thinking/problem solving/innovation etc skills through coding
 - b. Basics of computation/programming
 - c. Object Oriented Programming
 - d. Basic Data Structures and basic algorithms
 - e. Gaming with libGDX in Kojo

Following is how we have proposed to roll out the above –

Full Stack Development	200 youth	3.5 months * 4 batches = 7 months	50 youth at identified location in North Goa per batch, and 50 youth at identified location in South Goa at identified location.
Data Analytics	100 youth	3.5 months * 4 batches = 7 months	25 youth at identified location in North Goa per batch, and 25 youth at identified location in South Goa at identified location
IBM Z Fundamental	50 youth	3.5 months * 1 batch	25 youth at identified location in North Goa per batch, and 25 youth at identified location in South Goa at identified location
Cybersecurity	50 youth	3.5 months * 1 batch	25 youth at identified location in North Goa per batch, and 25 youth at identified location in South Goa at identified location
IoT	50 youth	3.5 months * 1 batch	25 youth at identified location in North Goa per batch, and 25 youth at identified location in South Goa at identified location
21 st Century skills to 200 school students from Goa	200 students	7 months	100 students at identified location in North Goa, and 100 students at identified location in South Goa

2. ENTRI

1. ENTRI offers spoken English course in Konkani Language on the Android app of ENTRI
2. ENTRI also offers a course that allows the students to prepare for the competitive exams. This courses are delivered in regional languages on the ENTRI app.

*The courses offered by ENTRI are free of cost to the students of HEIs in Goa.

3. SATKAAM

The strategic execution plan shall be carried out in the following manner:

Step 1: Kick off with the students and help them understand how the course will run, how they can make the most of it and how it will be taught using 1. Key concepts 2. Real-life industry case studies, and 3. Methods they can use to test their understanding and know how to use in real life

Step 2: The curriculum will move between the following three broad areas, namely 1. Understanding companies and how they function 2. Application of knowledge on key work areas 3. Essential professional and soft skills

Step 3: Group case studies would be given with the expectation that students apply what they have learnt to do it and present it professionally in a PPT deck and a video recording format with all participants speaking and presenting

Step 4: Some key interactive topics such as ‘Practicing Critical Thinking’, ‘Understanding Career Planning’, and ‘How to be Curious and Inquisitive’ will be mostly done with the students using situations, role play, techniques and problem-solving so that the sessions are very participative and interactive

Step 5: Students would be given a summary of all the things they have learnt, key takeaways, tips on the methods to be used to practice so that they can have that as a ready reckoner for the future as they interview and get a job and join the workforce.
